

TRAINING PLAN FOR COMMITTEE AND BOARD – 2022-23

Introduction

1. This paper reminds the Committee of the Training Policy for Committee and Board members and presents the combined Committee and Board Training Plan for 1 April 2022 to 31 March 2023 along with details of how progress will be monitored for both collective and individual training.

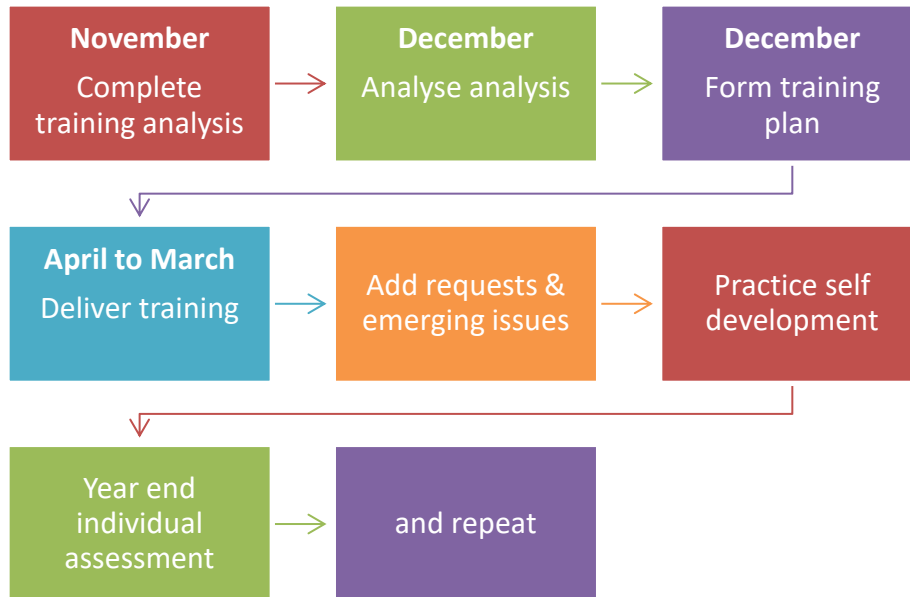

Recommendation

2. The Committee is asked to:
 - a) Note the current Training Policy and that it will be reviewed during 2022 in line with national developments.
 - b) Endorse the 2022-23 Training Plan.

Training Policy

3. This Committee approved the Training Policy on 13 March 2020, a copy of which is attached in Appendix A.
4. The policy remains unchanged. However, there are expected national developments which are likely to impact the policy, including:
 - The Scheme Advisory Board's Good Governance review,
 - Update of the CIPFA Knowledge and Skills framework for Local Pension Board members,
 - Publication of a new Pension Regulator's Single Code of Practice.
5. The policy will be reviewed during the year to incorporate any changes required by these developments.
6. The Training Policy outlines the annual training process cycle and the diagram below shows the steps that will be undertaken throughout the year.

7. Members complete a self-assessment questionnaire each autumn. The results are analysed and used to develop the following year's collective and individual training plans. The plan is flexible and can cater for any ad hoc requests or emerging issues for which training is required.
8. Towards the end of each year, the Chairs of the Committee and the Board review progress of training undertaken from the previous year and review the proposals for training for the year ahead.

Collective Training Plan

9. Committee and Board members completed the self-assessment questionnaires in the autumn of 2021 which have been used to determine the priority areas of training needs.
10. The table below provides a summary of the 2021 results along with a comparison to the 2020 results and shows an improvement in knowledge and understanding across a number of areas.

Topics	Combined Scores 2019	Combined Scores 2020	Movement
Legislation	69	69	-
Governance	73	76	↑
Administration	66	74	↑

Procurement and Relationship Management	68	76	↑
Investment Performance and Risk Management	64	73	↑

Financial Markets and Product Knowledge	67	67	-
Actuarial Methods, Standards and Practices	71	71	-

11. Committee and Board members received training in pensions legislation, financial markets and product knowledge, and actuarial methods, standards, and practices during the 2021/22 financial year.
12. The 2022/23 collective training plan will therefore cover the three priority areas of pensions governance, accounting and auditing standards, and pensions legislation and guidance.

Individual Training Plans

13. In addition to the collective training plan, each member will receive a summary of their results from the self-assessment questionnaire. This summary will highlight the areas where Members have identified individual training needs. Officers will assist Members by identifying training and development opportunities to meet those training needs.
14. The individual training plans also include space to record training and events attended throughout each year.
15. As well as attending Fund training events, it is expected that Committee and Board members will also take up other opportunities for training provided by external providers including virtual and in person (when permitted) conferences and seminars, as well as online training where available.
16. The Committee and Board will receive regular briefing material from a variety of sources and will be expected to keep themselves up to date with current issues in the LGPS.

Appendix CIPFA and TPR knowledge and skills frameworks

CIPFA Knowledge and Skills Framework and Code of Practice

1. CIPFA have developed Knowledge and Skills Frameworks for Committee members, senior officers and Local Pension Board members. This framework sets out the skills required by those responsible for pension scheme financial management and decision making in the public sector.
2. The Framework identifies core knowledge and skill requirements as:
 - pensions legislation
 - pensions governance*
 - pensions administration
 - pension accounting and auditing standards;
 - pensions services procurement and relationship development;
 - investment performance and risk management;
 - financial markets and products knowledge; and
 - actuarial methods, standards and practice

*The framework was published prior to the introduction of Pooling. The Fund will ensure the training plan covers this area.

3. CIPFA recommends (amongst other things) that Administering Authorities:
 - formally adopt the CIPFA Knowledge and Skills Framework (or an alternative training programme);
 - ensure that the appropriate policies and procedures are put in place to meet the requirements of the Framework (or an alternative training programme); and
 - publicly report how these arrangements have been put into practice each year

The Pension Regulator's Code of Practice

4. The Public Service Pensions Act 2013 (PSPA13) requires Pension Board members to:
 - be conversant with the rules of the LGPS and any document recording policy about the administration of the LGPS; and
 - have knowledge and understanding of the law relating to pensions and any other matters which are prescribed in regulations
5. These requirements have been incorporated and expanded on within TPR's Code of Practice 14 *Governance and administration of public service pension schemes* effective from April 2015.
6. The Training Plan will be updated for any changes in the requirements of the CIPFA Framework or tPR Code of Practice.
